Rates and yields may change after account opening. Fees could reduce earnings. Early withdrawal penalties apply to Certificates. Money Market Accounts are tiered rate accounts. For these accounts, if the balance falls within the range for a particular tier, the dividend rate applicable to that tier will apply to the full balance in the account.

¹ Items included in debit/credit and item count are: checks (paper and electronic), ATM withdrawals, withdrawals, over-the-counter checks, wire transfers and safe deposit box fees. Deposits, debit card transactions, and ACH transactions are not included in the debit/credit and item count.

² The 9 Month certificate will be offered for a limited time and will renew to the 1 Year term at maturity.

Federally insured by NCUA

Additional Account Disclosures & Fees

Except as specifically described, the following disclosures apply to all of the accounts:

1. Membership Par Value

The par value for one share is \$5. To be a member of the Credit Union, you will be assigned a member number and a membership share account to hold the \$5 par value of your one share in the Credit Union. The membership share account will not earn dividends, cannot be transacted on, and will not receive periodic statements. When membership is terminated, the amount from the membership share account will be returned to you if applicable. Each business member must be a member of the Credit Union and must fulfill all the membership requirements, including each business and each owner purchasing and maintaining at least one share in an account.

2. Rate Information

The Dividend Rate and Annual Percentage Yield on the accounts are identified above. For all accounts, the Dividend Rate and Annual Percentage Yield may change at any time as determined by the Credit Union.

Dividends will be compounded and credited monthly as applicable. For dividend bearing accounts except Certificates, the dividend period is monthly and begins on the first calendar day of the period and ends on the last calendar day of the period. The dividend period for Certificates begins on the date you start the Certificate account and ends on the monthly anniversary date. For example, if you start a Certificate account on the 10th day of the month, dividends will be compounded and credited on the 10th day of each month. If the anniversary date falls on a date that is not included in a particular month (for example the 31st for a month with only 30 days), dividends will be credited on the last day of that particular month. The Annual Percentage Yield is based on an assumption that dividends will remain on deposit until maturity. A withdrawal of dividends will reduce earnings.

For all accounts, dividends are calculated using the Daily Balance method, which applies a daily periodic rate to the balance in the account each day. Dividends will begin to accrue on noncash deposits (e.g., checks) on the business day you make the deposit to the account. If you close the account before accrued dividends are credited, accrued dividends will be paid at the time the account is closed.

3. Inactive Accounts

For Savings and Checking accounts, if there has been no activity on the account(s) for 365 consecutive calendar days and the account has a zero balance, the account will be closed without notice to you.

4. Additional Certificate Account Features

a. Account Limitations

After the account is opened, you may not make additional deposits to a Certificate account until maturity.

b. Maturity

The Certificate account will mature on the maturity date set forth on your Certificate Receipt or Certificate Maturity Notice.

c. Early Withdrawal Penalty

We may impose a penalty if you withdraw any of the principal of the Certificate account before the maturity date.

1) Amount of Penalty. The amount of the early withdrawal penalty is based on the term of the account, as follows: i) For accounts with terms of one (1) year or less, the penalty is equal to 90 days' dividends on the amount withdrawn; or ii) For accounts with terms of more than one (1) year, the penalty is equal to 180 days' dividends on the amount withdrawn.

2) How the Penalty Works. The penalty applies irrespective of whether the dividends have already been earned or not. If accrued dividends are insufficient to pay the penalty, or earned dividends have previously been withdrawn, the penalty will be deducted from principal.

3) Exceptions to Early Withdrawal Penalties. At our option, we may pay the account before maturity without imposing an early withdrawal penalty under the following circumstances: i) when an account owner dies or is determined legally incompetent by a court or other body of competent jurisdiction; ii) where the account is an Individual Retirement Account (IRA) and any portion is paid within seven (7) days after establishment; or iii) where the account is an IRA and the owner attains age 59½ or becomes disabled and begins making periodic withdrawals.

d. Renewal Policy

Certificate accounts are automatically renewable accounts. Automatically renewable accounts will renew for another term upon maturity. You have a grace period of ten

days after maturity in which to withdraw funds in the account without being charged an early withdrawal penalty. Promotional Certificates may not have an automatic renewal feature or automatically renew to the same term. Refer to the Rate and Fee disclosure provided at account opening.

e. Nontransferable/Nonnegotiable

The account is nontransferable and nonnegotiable. The funds in the account may not be pledged to secure any obligation of an owner, except obligations with the Credit Union.
